

To whom it might concern:

Along this two years, Yojhan has been a outstanding developer. He has tackled complex challenges with little or no prior information, showing a great proactivity and problem-solving skills. In particular, I would highlight its good taste for polished results, which is particularly pleasant in terms of UI changes he had made in its several tasks related with porting usual challenges.

Yojhan has worked under my lead on game porting. He has learned the full process of bringing a PC game to any of the nowadays consoles, has overcome the hardness of their compliance requirements and shown nice team skills dealing with other developers, testers and managers and, in brief, is a very valuable hard worker who we would love to be able to get back at some point in the future.

Sincerely yours,

Emilio Molina Cazorla
Chief Technology Officer
